Education

- B.Tech in Computer Science and Engineering (AI & ML)** 2024 – 2028
Vellore Institute of Technology, Chennai

Experience

- Web Development Intern — Edunet Foundation (IBM SkillsBuild)**
Developed full-stack web features using HTML, CSS, JavaScript, and Node.js with REST API integration and Git-based workflows.

Projects

- Rootkit Detection & System Security Analysis**
Built an ML-based Linux anomaly detection system for behavioral threat analysis with Dockerized deployment and 99.1% detection accuracy.
Tech: Python, Docker, Linux, Scikit-learn
- AI Voice Spoofing Detection System**
Built a deepfake audio detection pipeline using Faster-Whisper, Random Forest, and audio feature extraction techniques including MFCC, spectral, SNR, and pitch-variance analysis. Optimized inference using int8 quantization for efficient CPU execution.
Tech: Python, FastAPI, Faster-Whisper, librosa
- Multi-Agent Stock Market AI Assistant** (Google Cloud Gen AI Academy)
Built a multi-agent financial assistant using Google ADK, Gemini 2.5 Flash, and Vertex AI with real-time stock data, financial news, and analyst sentiment integration for Buy/Hold/Sell insights.
Tech: Python, Vertex AI, Gemini API, Docker, Cloud Run
- CabinCheck — Faculty Availability App** (Hackathon — Top 10)
Developed a real-time faculty availability application with chat, authentication, and Google Maps integration.
Tech: Flutter, Firebase, Google Maps API

Research & Publications

- Smart Agriculture via Hybrid ML & DL for Plant Disease Identification**
Presented at ICERCS 2025. Developed a hybrid CNN, MobileNetV2, and SVM-based plant disease detection system with GLCM feature extraction, achieving accuracies up to 99.98%.

Leadership & Community

- Technical Team Member — Young Summer of Code (YSoc)**
Supported technical operations, contributor coordination, issue triaging, and repository management workflows.

Achievements

- Top 10 — CabinCheck Hackathon Project
- 8th Place — Eco Network Hackathon
- Research paper accepted at ICERCS 2025

Skills

- Languages:** Python, C, C++, Java, JavaScript, Dart
- Core CS:** Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS
- AI / ML:** CNN, SVM, Random Forest, MobileNetV2, Whisper, MFCC, GLCM, PCA, DWT
- Web & Cloud:** React.js, Node.js, Express.js, Flutter, Firebase, GCP, Docker
- Tools:** Git, GitHub, Postman, VS Code, MySQL, Oracle SQL
